ANNUAL REPORT

OF THE

SCHOOL BOARD OF LEE

FOR THE

YEAR ENDING MARCH 1, 1892.

The School Board respectfully submit the following report:

In looking back over the work of the past year we find much that is satisfactory and encouraging, though it is not unmixed with disappointments.

We wished to accomplish much but have sometimes failed in meeting success. Mistakes have been made, some unavoidable and others which should, and perhaps could, have been avoided.

At the beginning of the year the question arose as to whether the services of Mr. Davis should be retained in the South Lee school; he having had charge of the school for two years, a length of time which is usually enough for any teacher to remain in one school at one time, but a majority of the Board decided that it would be for the best interest of the school to retain the services of Mr. Davis for one term at least.

He did his work in his usual prompt and energetic way and to the entire satisfaction of the Board.

As it became evident that Mr. Davis was not being supported by the parents and those who should be friends of the school to the extent that every teacher should be, it was thought best to make a change in teachers for the second term.

Under Mrs. Snell's care the school made good progress and we think remained fully up to the standard set by Mr Davis.

Mrs. Morrison's register for the winter term shows irregular attendance, which was caused by sickness among parents and scholars. She is an experienced teacher and worked well for the good of her pupils.

The Turnpike school we almost wish we might pass over without reporting, but we can not. For the first term we were fortunate enough to secure the services of Miss Kelsey and the school under her management was entirely satisfactory. She would remain but one term and we were obliged to find another to take her place at a time when nearly all the best teachers are engaged for the year.

We employed one who proved incompetent to fill the place and were obliged to change. Miss Davis worked well and attained more than an average success.

For the winter term we employed a competent and experienced teacher; but after five weeks she was taken sick and obliged to give up the school. The remainder of the term was taught by Miss Edna Lang who came well qualified to assume the duties of the school. She became thoroughly interested in the school and worked

hard for the interest and advancement of the scholars and would have attained perfect success, but unfortunately the same element came into the school that came near destroying the winter term last year. When parents and guardians allow their boys to go to school armed with revolvers, and the boys, themselves, go with no higher ambition than to annoy the teacher and destroy the school property it is useless to expect the school to accomplish what it is designed to do, no matter who may be the teacher or school board.

Some one may ask, "Why did you not turn such boys out of school?" We answer, "Our schools are for those who have a great deal to learn and we hoped they would have manhood enough to see their mistake."

At Wednesday Hill the scholars were sent to Durham for the spring term and were given one fall term of twelve weeks in the old school house, after which they had the privilege of going to Durham for the rest of the year.

The term in the old school house was begun with Miss Nellie S. Hill as teacher; she was thoroughly well qualified and would have given good satifaction but was taken sick at the end of four weeks and gave up her position to Mr. George Cate. He having taught the school before, had the confidence and respect of both parents and scholars at the beginning. The closing examination was very pleasing.

At Lee Hook we made an arrangement with the Newmarket School Board to pay one-half the expense of the Plains school for the year. The arrangement, we think, was quite satisfactory, as good teachers were

employed and our scholars had as good advantages as any in town. Three scholars were allowed to attend school in Durham, though we think it would have been just as well for them, and saved the district about sixty dollars, if they had attended the Plains school.

In the centre of the town were a few scholars who were out of reach of the other schools and we have paid their tuition to Miss Ida Thompson and C. S. Bates at the rate we had to pay out of town last year.

Hoping that the voters and tax payers will soon see the necessity of providing some more suitable accommodation for the scholars in the centre of the district we close our report.
